## FILIBUSTERS GET OFF

Dauntless Salis With a Cargo of Arms and Ammunition.

THE EXPEDITION WELL PLANNED

Gone Fully Twelve Hours Before the Authorities or Spanish Consul Knew Anything Was Going On Submarine Vessel Constructed For the Cuban Patriots. Other Cuban News.

TAMPA, Fla., June 16.-A vessel supposed to be the Dauntless came into Hillsborough bay Monday night and took on a cargo of arms and ammunition from a schooner lying at anchor off the mouth of Alasia river and then

West with an expedition. It was circulated by those interested to throw the Americans to aid the cause of liberty in officers off their guard and the Dauntless came in that night and got her cargo. The two boats were tied up liberty and civilization, ought to be set until about 11 o'clock and in the moon- aside and, at least, that Cubans should light could be plainly seen from the river tront.

J. E. Cartapa and Charles Silve are vessel should not act as patrols, thereby the only ones known to be aboard and aiding Spain against Caba." they came up from Key West,

The schooner came into the bay and anchored Saturday afternoon. Her name is not known. She was two-masted and is about 130 tons. Her hull was black, and she was evidently well

Quite a number of men went from West Tampa, striking across the country and proceeding to a point on the bay shore, took to boats near the place where the Colonel Calleros expedition embarked.

The expedition was well planned and was gone fully 12 hours before the nuthorities or Spanish consul knew that anything was going on, so completely were they thrown off their guard by the shrewd ruse.

The Dauntless had an engagement to go on the ways here, and had a government boat come upon her unexpectedly she would have had a good excuse for being in Hillsborough bay.

The whole affair was worked very quietly. The inysterious schooner left about daylight yesterday morning. No one seems to know what boat this is. Some assert that it is the Adams, which received her load from the Biscayne and then ran up in this harbor to meet a steamer which would take the munitions to Cuba or out to sea to the Daunt-

that the schooner hails from the neighborhood of Carrabelle and received her load at a point where the railroad crosses the river. The presence of Captain Parlin, a prominent citizen of Carrabelle, in this city, for the past few days, adds strength to the rumor. Since his arrival he has been in conference with parties formerly very active in the filibustering business.

#### Safeiy Past Key West.

KEY WEST, Fla., June 16 .- A tug resembling the Dauntless passed through the harbor yesterday morning about 6 o'clock and went through the northwest channel. Her smokestack was painted red. The tug Clyde went out Monday night with a load of coal in bags. The schooner Adams, that left Monday with a load of arms, has not been heard from yet. No government vessels are in port.

#### SUBMARINE DESTROYER.

#### A Vessel Purposely Constructed For the Cuban Patriots.

New York, June 16.—A dispatch to The Press from Lockport, N. Y., says: Last month a young Cuban came here and took measurements on the canal locks. He would not explain the nature of his visit. Yesterday he came through here on a strange craft, cigar shaped, 50 feet long and bound for New York, where, it is said, he will turn the boat over to the Cuban junta. The boat was built by the Globe shipbuilding works of Cleveland and is in charge of Frank Lambson, engineer, and William Boylen of the Oleveland company. Three Cubans are on board. They are Antonio Muzario, Regina Aguirre and Calixto Raveni.

The vessel is a submarine destroyer. The outer shell is of steel and the boat itself is operated by steam. It has no smokestack, as its generating apparatus makes no smoke. It can attain a speed of 28 miles an hour and has shown even a higher rate of speed in a recent official test on Lake Erie. The fires under the boilers are fed with bituminous crude eil. When beneath the surface of the water the steam is turned luto a condenser or reservoir, which will hold it until the surface is reached, when the vapor is allowed to escape. Much of the steam is turned to water in the meantime and is properly secured.

The boat is running through the canal at a uniform rate of 10 miles an hour. Mr. Boylen said that the boat was to be used for dynamiting purposes and to protect the landing of filibustering expeditions upon the island of Cuba. This submarine diver is calculated to baffle all torpedo catchers and destroyers, and thus fasten death and destruction to Spanish gunboats and cruisers patrolling the high seas and approaches to

#### SHOT AND KILLED.

#### A Farmer Slays an Advertising Solicitor For Taking His Horse.

Indianapolis, June 16. - James Thatcher, an advertising solicitor, who lived in rooms in Massachusetts avenue, was shot and killed early yesterday morning by Harvey Leonard, a farmer on the Michigan road. Thatcher and William Elvis, accompanied by two wonien, Nora Mullen and Ella Thompson, spent the evening at Bellevue, a resort on the bank of the canal, at the Michigan road.

They stayed there antil after 12 o'clock, drinking beer and rolling tenpins. When they started back home it was too late to catch a Fairview park street car, so they started to walk to North Indianapolis to get an owl car. As they went along the Michigan road they came into possession of a horse. They say they saw it straying in the road; the farmer says they stole it from his stable. Anyhow, they were leading it off when Leonard, the owner of the animal, and his son Louis, caught up with them. A wrangle ensned, which ended in the shooting and instant death of James Thatcher. was shot in the back underneath the left shoulder with a shotgun.

The charge burned a hole in the back of Thatcher's coat and tore an ugly wound, almost as large as the bore of a base ball cannon.

The police station was notified of the shooting about 2 o'clock yesterday Captain Quigley and Patrolmen Holtz and Wallace went out to the place and arrested Leonard and his son, Elvis and the two women and brought them to the city and locked them up.

The body of the dead man was taken to the undertaking place of Herrmann. in South Delaware street. His wife is at present visiting in South Dakota.

The Treaty Almost Ready to Be Sent to the Senate.

IT MAY BE PASSED AT ONCE.

Tariff Legislation Will Not Be Interfered With in the Senate - No Provision Made For Ex-Queen Lilluokalani or Princess Kaiulani-The Emigraffon Question Ilas Been Definitely Arranged.

WASHINGTON, June 16 .- The treaty for the annexation of the Hawaii islands to the United States will be sent to the senate by President McKinley this week unless present plans are changed. Men close to the administration and others who are engaged in pushing through the tariff bill have been informed that the treaty will be transmitted to the senate at once, and it is stated there will be no consideration of the Hawaiian reciprocity provision in the tariff bill until the treaty is received.

The one point of importance in which the treaty differs from the convention negotiated by Secretary Foster in President Harrison's administration is the omission of any provision for ex-Queen Lilinokalani and the Princess Kainlani. In the original treaty it was provided that the government of the United States should pay the ex-queen the sum of \$20,000 cash and that amount of money as a pension each year during the remainder of her natural life, provided she in good faith submitted to the government of the United States and the local government of the island.

The Princess Kaiulani, being the next negotiated by Secretary Foster in Pres-

The Princess Kaiulani, being the next line of blood, was to receive a cash payment of \$150,060, but no pension, under a similar proviso as in the case of

the ex-queen. It is understood that mny objection that might have been expected to the annexation of the island based on the large proportion of coolies in the population, has been forstalled by an article not only prohibiting the further emigration of such laborers to the Hawaiian islands, but also prohibiting the coming of Chinamen from the islands

to the United States. At the cabinet meeting in the course of the discusion of the treaty it was decided that its pendency in the senate would not necessarily cause any considerable obstruction to the progress of the tariff bill, and while there is every disposition on the part of the president to avoid any interference with the rights They claim that they started in a flat bottom skiff from Key West June 4 for stated that the treaty will not go in No Name Key for fishing and were blown away into the gulf. They had the executive that it is not the wish of the executive that it should be acted on

promptly.
While the treaty is in the senate, either in the hands of the committee on foreign relations or on the calendar of executive business, it is the expectation that the people of the United States will have an opportunity through the press and other mediums to declare their sentiments upon the matter, and if, as is expected, there is an overwhelming declaration for an exation, it is be-lieved that the senate will be quick to houn, the special commissioner who respond to the demand. In this case the treaty, it is believed, can be taken up and ratified in the course of one or two executive sessions, while the regu-

lar tariff debates are in progress daily. The manner in which the Hawaiian treaty will come before the house is in the paragraph which provides that the United States shall assume the present debt of Hawaii. This will not in any way affect the treaty or interfere in its adoption. Irrespective and before any action will be submitted to the house will come the ratification of the treaty by the senate. If the treaty is ratified no action by the house can change the condition. The failure of the house to appropriate to pay the debt or the interest on it may become a future complication, but the ratification of the treaty by the senate will annex the islands.

The treaty that made Alaska a part of this country carried with it an appropriation of several million dollars. There was a most bitter contention in the house about making the appropriation but the senate had by treaty ratified the agreement. Of course, if congress by action of the house, had refused to make the appropriation then Russia would held possesiion of Alaska The case of the refusal of the house to appropriate for the interest or the debt of Hawaii, will not it is said, prevent annexation, but the payment of the debt or interest would be a subject for future consideration and a question between the province, colony or territory of Hawaii and the holders of the debt if congress should not pay it.

A Brother of Justice Harlan Accidentally Killed by a Train.

Louisville, Ky., June 16.-James P. Harlan, a brother of Associate Justice Harlan, was accidentally killed by a train on the Louisville, Henderson and St. Louis railway yesterday afternoon near the city alms house.

Mr. Harlan, who was about 70 years old, was once one of the most prominent lawyers in the state, enjoying a large practice and holding a high judicial office in this county. He was, however, a victim of an uncontrollable appetite for liquor, and was incapacitated for business despite the efforts of his relatives and friends to bring about his cure. He practiced law for several years in Kansas, and returning to Louisville about three years ago voluntarily entered the alms house, where he has

since resided. Judge Harlan was on the way to the

CINCINNATI, June 16.-Judge James W. Fitzgerald, formerly of this city, died yesterday morning in St. Mary's, Kan., where he has been residing for a number of years. His body will be

brought here for burial. James W. Fitzgerald was born in Queenstown, Ireland, Feb. 14, 1837. He landed in Quebec in 1852 and came to Cincinnati a year later. In 1864 he graduated from the local law college and soon after was appointed assistant county prosecutor. In 1884 he was elected judge of the police court and soon became famous as a terror to evildoers. His "thirty-fifty" became famous and several attempts were made to assassinate him. His fearless sentencing of the rioters in 1884 brought him general praise. In 1885 he was re-elected by a majority of 1,400, while the other candidates on the ticket were overwhelmingly defeated.

He was from boyhood a pronounced abolitionist and when he removed to the west he became noted as a Populist. He was a well known worker in the Land league and in the Irish Kational league, and always remained true to the Emerald lsle. He was chairman of the Chicago convention of the National leagne in 1886.

In Cincinnati he leaves a son, Attorney Charles Fitzgerald; n nephew, James Templeton, of the city engineer's office, and Miss Mary Templeton, a

It is stated on good authority that intimations have been he, as the mayor of the city, advised made to Mr. Dawes that he could have the place of comptroller of the treasury, now held by Mr. Bowles, but that he has not decided to accept.

This offer is said to indicate a desire on the part of Secretary Gage to retain Mr. Eckels in his present position, and that this may be possible, the plan has been devised of switching Dawes off

into another place. One of Dawes' friends said that he hardly thought the Chicago "states-man" would consider the offer, or that president encouraged it. friend insists that the president voluntarily tendered the office of comptroller of the currency to Mr. Dawes, and would not now encourage a movement to switch him to another track.

URBANA, O., June 16.—Coroner Hewltt rendered the following verdict late last night on the death of Harry Bell, who was killed when the first attack was made on the county jail on the night before the lynching of Click Mitchell:

"I do find that the said deceased came to his death from a wound in the head produced by a rifle ball fired by a member of Company D, Third regiment, Ohio national guard, acting under orders from the captain of said company, and while attempting to defend the county jail of Champaign county, and prevent a crowd of people there assembled and doing violence to a prisoner, Charles Mitchell, Jr., confined therein, charged and convicted of

"I fail to find from the testimony of the witnesses examined by me any failure or neglect on the part of Governor Asa Bushnell to promptly respond to any request made to him or the shcriff, Lewis A. McLain, for troops to assist him in defending said jail or protecting said prisoner. And I do not find from the testimony so taken by me any failure on the part of Sheriff Lewis A. Mc-Lain to use all means at his hands for the protection of said jail or said pris-

oner. "I further find that Mayor C. H. Ganson directed the police force of the city to do all in their power to preserve order, and that he did not in any way attempt to usurp the power of the sheriff, or in any manner claim to represent him in discharging his duty, but that the crowd there assembled not to attempt any violence to the prisoner, Charles Mitchell, Jr., and that his conduct on that occasion was wholly directed toward preventing any violence being done to the prisoner by the persons there assembled and any further killing of the people by the milinia.

A similar verdict was rendered as to the death of Upton Baker.

The remains of James R. Piper were Ray's Postoffice Drug Store. brought here Tuesday morning on the C. and O.'s 10 o'clock train and taken to Carlisle on the L. and N.'s nfternoon train for interment.

He was found dend Sunday at his home in Bloomington, Ill., where he had lived for years like a hermit, says a special from that city. Deceased was eightynine years of age, and had never married. A special from Carlisle says: "J. R. Piper, of Bloomington, Ill., was born in Nicholas County in 1808, was a poor boy and clerked in a dry goods store in Carlisle sixty years ago. By close economy he managed to make quite a fortune, and leaves four heirs to share his estate. He was very eccentric and being disappointed in a love affair at au early age he turned his attention to getting money. It is said he began lending money at 12 Grand Lodge at that place in September, per cent. over forty years ago. He lived says the Inquirer. a secluded life, doing his own cooking and 'baching' in one of his handsome stone bulldings in Bloomington. While he was close and exacting he had some liberal ideas. He presented the Christian Church of this place a handsome pulpit a few years ago. He erected the first granite monument in Carlisle Cemetery over thirty years ago, costing \$2,000. With all his closeness he was neat in his appearance. He had but one idea, that of making money and holding fast to it. His wealth is variously estimated from \$150,000 to \$200,000. For forty years he made a visit once a year to his old home, Carlisle, but seldom stopped at a hotel."

Deceased was a cousin of Mr. S. A. Piper, of this city.

#### SCHOOL LAW POINTS.

State Superintendent Davidson Issues a Circular in Answer to Numerous Questions.

The tollowing circular has been issued by Superintendent of Public Instruction

To County Superintendents: Questions involving the following points of law reach this office with such frequency that it is thought not out of place to communicate with you relative to them: First-The provision relative to age of appliants is clear and explicit, county boards having no authority to examine any one under eighteen

years of age. Second-It is clearly a violation of law and an infraction of official oath to grant a certificate to an applicant who, within the belief of the examiners, has had improper access to the examina tion questions.

Third-The fact that the Judge and Clerk of a trustee election were not sworn does not invali-

Fourth-The law which provides that "the examiners shall alion a reasonable time for the examination on each subject, taking the subjects in the order named in the section (Sec. 21) specifying the subjects embraced in the common school course," is mandatory, and should be strictly followed.

Fifth-in case of a tie, as provided for in section 72, common school law, the county superintendent is empowered to select a trustee. In doing so, he may name one of the candidates, or he may choose another. In either case the appointee serves the regular term.

Sixth-Section 71, common school law, is not in conflict with Section 152, State Constitution, Section 155 of that Instrument exempting trustee elections.

Seventh-The provision of law relative to the renewal of first-class certificates was not incorporated into our statutes until July, 1893, and does not apply to any certificate issued prior to that date, and consequently no certificate can be \$76 an acre. renewed under it before July, 1901.

The old man who looks out at the world with clear and healthy eyes cannot help feeling great gratification at the thought that his children have inherited from him no weakness uor tendeucy to disease. The healthy old man is the man who has throughout his life kept his digestiou good and his blood pure. Not one in a thousand does do it. Germs go though the healthy body with out effect. Let them once flud lodgment or let them find a weak spot, they will develop by the millions and the blood will be full of them. Instead of giving strength to the White and Fancy Colored tissues, it will force upon them funutritious matter, and the man will lose flesh and the more susceptible he is to disease. Dr. Plerce's Golden Medical Discovery is the only medicine that absolutely and infallibly cures all blood diseases, and almost all diseases are blood diseases. 11 isn'i medicine for some one particular so-called disease. It is a medicine for the whole body. It forces out all germs of diseases, and replaces impuritles with rich, red blood.

PRICES seem to be picking up a bit. Ralley Bros. of Versallles, have lately sold 20 saddle horses at Chicago for \$6,760, an average of \$337.50-one mare, Ervina, bringing \$1,200. Gay Bros. of Woodford, sold a mare for a higher price than Ervina brought, and sold a saddle stallion for \$1,000. Garrett Bros., of Woodford, sold two geldings recently for \$950, and Stone & Schobeth secured an average of \$320 for two cars of saddlers at Cleveland.

SUGAR TARIFF DECIDED UPON. Schedule All Completed Except the Provision Relating to Hawaii.

WASHINGTON, June 16 .- The senate made a great stride forward yesterday by completing the consideration of the sngar schedule of the tariff bill, except the provision relating to Hawaii, which went over. This sehedule has been the storm center of the entire bill, and with it disposed of there is a better prespect for speedy action on the bill as a whole. The first paragraph of the sugar schedule has served to bring out all the speeches and the test votes, and when

agreed to without further opposition. As agreed to the schedule places on sugar not above No. 16 Dutch standard leent per pound and .03 of a cent for every degree above 75; and on sugars per pound, but on sugars testing below 87 degrees 1-10th of a sugars testing below above No. 16 Dutch standard 1.95 cents degrees 1-10th of a cent per pound shall be deducted. The other provisions of the seliedule relate to maple sugar, maple syrup, candy, etc.

LOUISVILLE TOBACCO MARKET.

Very Strong and Active Last Week, With Some Advance on All Grades of Burley.

[Furnished by Glover & Durrett, Louisville To-bacco Market.]

gales on our market for the week just closed amount to 2,155 hhds., with receipts for the same period 1,893 hhds. Sales ou our market since January 1st amount to 81,138 hhds. Sales of the crop of 1896 on our market to this date amount to

We have had a very strong and active market, with some advance on all grades of burley and a very decided advance in the medium to fine grades of leaf. Sales of good leaf were frequent during the week at figures from \$12 to \$16 with occasional hhds, selling from \$16 to \$18 and one hhd, hringing \$21.50 per hundred, being the highest price thus far obtained for the 1896 crop. The general belief that there will be a decided curtailment in acreage this year as compared with last year, regardless of future weather couditions, is manifesting itself in speculative orders on the market and the advance resulting from this condition is being followed by the manufacturing trade and they are taking about the usual proportion of the offerings. The rain which occurred in some localities on Monday of iast week was not general, and in most localities was not sufficient to afford a season for setting tohaeco. Comparatively little tobaeco has been set in the burley section, and from the best information we can gather we do not think that over 50 per cent. of the intended burley crop has been put on the hill. In the lower Green River district, the weather has been more favorable for transplanting, and the setting is practically completed in that locality. The reports which reach us from the dark producing territory would indicate that they have put out about 75

per cent, of the intended crop. The iollowing quotations fairly represent our market for burley tobacco (1896) crop:
